Modula

Modula is the new range of wall lights from Cini&Nils, available in three sizes (200, 300 and 500 mm) and various wattages to suit a wide range of settings. The design combines direct and indirect light. With its minimalist aesthetic, Modula treats light as an architectural element that blends naturally into the space.

Profilo

Profilo is a range of ceiling lights available in various sizes: square versions measuring 300, 500 and 800 mm, and round versions measuring 500 and 800 mm. Its distinctive feature is the diffuser with anti-glare technology, designed to ensure visual comfort. Available in various versions and dimming systems, Profilo precisely meets the needs of both residential and professional environments.

Nodo

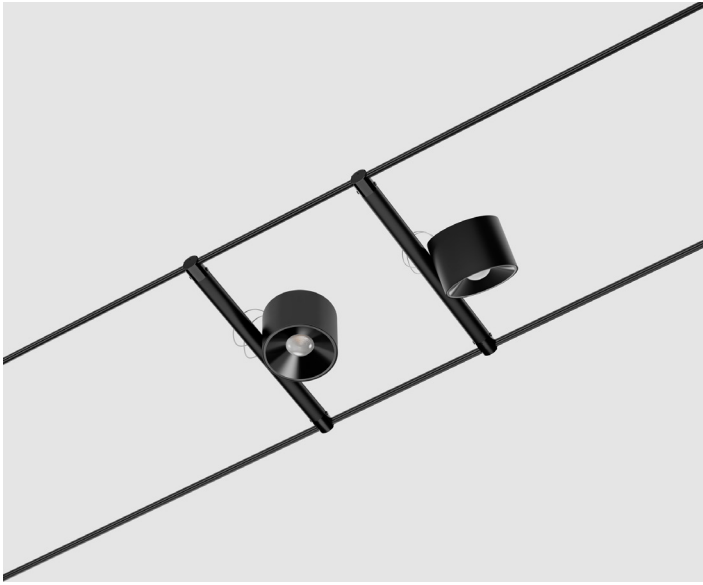

Nodo is a range of micro ceiling lights, available in round or square shapes, designed to blend discreetly into the architecture and provide precise lighting. Also available in multi-module configurations of 2, 3 or 4 units, it allows for coordinated and rhythmic lighting arrangements. A minimalist yet distinctive design that elegantly enhances the light.

TensoNodo

TensoNodo draws inspiration from the minimalist design of Nodo for the Cini&Nils suspension system. Compact and designed to integrate seamlessly into the cable system, it transforms into a spotlight that can be adjusted by up to 350° on two axes, allowing the light to be directed with precision onto surfaces, objects and architectural details. Lightweight and versatile, it combines minimalist design with dynamic functionality for both residential and professional spaces.

TensoSpot

TensoSpot is the evolution of TensoStilo, designed to ensure greater visual comfort and light quality. Thanks to micro-optics and anti-glare reflectors, it delivers precise and controlled light output. The direct light is defined and focused, whilst the indirect light, diffused by an opal element, creates a soft, enveloping glow.

TensoSottile

TensoSottile is the latest addition to the Tenso range, designed by Cini&Nils and intended for installation on cables suspended from wall to wall. The square, slim and minimalist design is paired with black silicone cables and a matching ceiling rose for an elegant look. Available in indirect or direct+indirect versions, it offers great compositional flexibility. The modules, which can be positioned along the cable run, allow you to adapt the lighting and style to any space.
