

Fischietto

Fischietto is an out of the ordinary reading lamp: it incorporates a USB-C socket and two switches, all in an unparalleled design. Perfect for night spaces or study areas, Fischietto features a swivelling spotlight with dimmable lighting. Its two switches control the turning on of both the spotlight and the general ambient lighting. With a choice of different colour options for the front plate, Fischietto fits every style. Welcome to the new era of multitasking lighting.
